## NOTES

1. In completing **Part A** departments/divisions/programs may make reference to the quality assurance framework of the University: *Assuring Quality and Academic Standards at HKUST* available at <http://ga.ust.hk/>. The major requirements are:
  - The department/division/program has in place committees or equivalent forums to review: admissions (to majors in the case of Ug students) and induction of students; academic programs, courses and the co-curriculum delivered by the department/division/program; mentoring and advising; student assessment and academic progress; student feedback (e.g. from SFQ/SESQ/TPg Exit survey or other forums including Student Staff Liaison Committees or focus group meetings).
  - The role of individuals and committees is clearly assigned within a system that is designed to maintain and improve the quality of teaching and learning.
  - These committees: provide for a range of views to be expressed; consider evidence relevant for evaluating performance; share good practice; determine an agenda for action; and follow up on planned action. In particular:
    - The department/division/program has taken advantage of external peer review and input from employers, professional bodies and others to benchmark academic standards and the quality of educational provision and the preparation of graduates for employment or graduate studies.
    - There are regular opportunities for students/student representatives to meet with faculty responsible for courses and programs and to freely express their views;
    - Students are informed of changes made as a consequence of their feedback.
  - The relevant committees have met regularly and have documented their work.
